# RemoteApp / External Access Set-Up for Mac

- From your desktop, click the Apple icon in the upper-left corner.
  - Click App Store.
  - **To download Microsoft Remote Desktop:**
    - Use the search bar in the upper-right corner and type **"Microsoft Remote Desktop."**
      - Click Install.

  - **To update Microsoft Remote Desktop:**
    - Click the Updates icon in the navigation bar at the top of the App Store window.
    - Click on Update beside the Microsoft Remote Desktop application.

1) Open **Finder** and navigate to your **Applications** folder (Macintosh HD/Applications).
2) Double-click on **Microsoft Remote Desktop** to open the application.
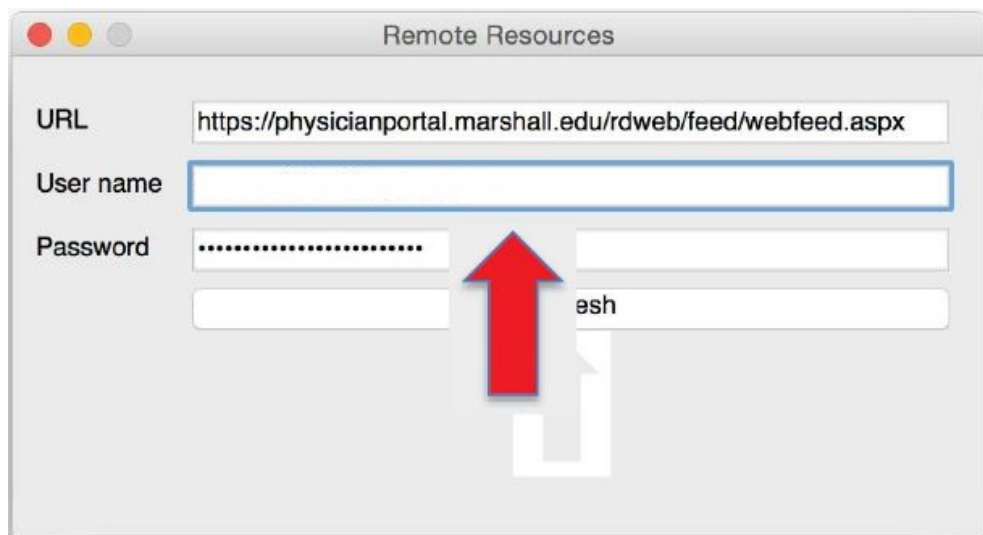

3) Click on **Remote Resources** to add a feed.

4) Enter the following URL: **https://physicianportal.marshall.edu/rdweb/feed/webfeed.aspx**
   Enter your Domain username and password.

        IF MUSOM Domain: **musom\username**

        IF MARSHALL Domain: **marshall\username**

Then click **"Refresh"**

5) You should now see all of the Remote Applications listed under **Remote Resources.**
