

Flow Chart of N95 Mask Disinfection Process for Marshall Health Outpatient Clinics

Flow Chart of N95 Mask Disinfection Process

****We will pick up more times daily if necessary****

****Masks must be in folded bag and in bin or EOC/Courier WILL NOT pick up****

****Masks can be disinfected up to 5 times; CHH housekeeping will put a dot on the tag each time it comes through****

****If your mask is deemed soiled/degraded beyond use or has met the maximum number of uses you will need to get a new mask*****

****Physicians can choose to use Marshall Health Process of getting their masks disinfected or utilize Cabell Huntington Hospital's Process*****
