

Basic Science

- Poster Abstract (Student): **Shreya Tapan Mukherji**/Biomedical Research/Basic Science on *Renal Proximal Tubule-Specific Ablation of Atp1a1 Reveals a Novel Tonic Inhibitory Mechanism of Sodium Reabsorption*
- Poster Abstract (Post-Doctoral): **Hari Vishal Lakhani**/Surgery/Basic Science on *Detecting early onset of chemotherapy-related cardiac dysfunction in breast cancer patients in the West Virginian population using a novel panel of biomarkers*
- Oral Abstract (Student): **M. Jeremiah Matson**/Biomedical Sciences/Clinical Science on *Bacteremia Is Not Commonly Detected in Ebola Virus Disease*
- Oral Abstract (Post-Doctoral): **Molly Butts**/Clinical and Translational Sciences/Basic Science on *Moderate Ethanol Differentially Regulates Glucose and Amino Acid Absorption in the Mammalian Small Intestine*

Clinical Research

- Poster Abstract (Student): **Nathan Baisden**/Family Medicine/Clinical Science on *Evaluation of Factors Affecting Nutritional Status in the Community Dwelling Oldest Old*
- Poster Abstract (Post-Doctoral): **Dipali Nemade**/Neurology/Clinical Science on *Make Kids Stroke-Smart: A Community Based Interventional Study*
- Oral Abstract (Student): **Amy Smith**/OBGYN/Clinical Science on *Obesity Does Not Impact Continuation rates of Long Acting Reversible Contraception*
- Oral Abstract (Post-Doctoral): **Lauren Fitzpatrick**; Casey Tufts /Pediatrics/Clinical Science on *Improving Resident Attendance at Neonatal Resuscitations*

Case Study

- Poster Abstract: **Ashar Farooqi**/Neurology/Case Study on *Unique Ictal Signature: Delta Brush as an Ictal Morphology in a Patient with Hypoxic Ischemic Encephalopathy*

Education

- Poster Abstract: **Maya Menking-Colby**/Orthopedics/Education on *The relationship between diet, gut microbiota, and chronic disease*
