12:45 p.m.	Evaluations & Wrap Up <i>Aneel Chowdhary, MD</i> Marshall University JCESOM Edwards Comprehensive Cancer Center

4th Annual Hematology/Oncology Update for the Primary Care Physician – April 26, 2013

Course Objectives

- Apply knowledge of the work-up of a patient with mild pancytopenia or thrombocytopenia before referral to a specialist.
- Compare and contrast the use of blood products, including single donor and multiple donor platelets, cryoprecipitate, prothrombin complex and specific factor transfusions.
- Describe the work-up and plan of care for patients with hematologic diseases such as CLL or monoclonal gammopathy.
- Identify patients to be referred for genetic counseling and genetic testing.
- Describe cancer risk reduction strategies related to a genetic mutation.
- Compare and contrast the indications for mammography, 3D mammography, ultrasound and MRI in the diagnosis of breast cancer for specific patients.
- Discuss the differences between palliative care and hospice care.
- List one resource to assist in equal analgesic conversion.
- Apply the knowledge of the risks and benefits of tube feedings for patients at the end of life.
- List 5 of the top 10 sources of distress reported by ECCC cancer survivors.
- Describe the role of primary care providers in reducing fear of recurrence for cancer survivors.
- Discuss one late side effect of radiation therapy seen in breast cancer patients.
- Formulate a plan of preventive care for the cancer survivor.
- Formulate a plan of care for a specific patient with a history of cancer, post treatment.
- Formulate a plan of care for the patient with a hematologic illness.
- Formulate a plan of care for the patient at high risk for breast cancer.
- Formulate a plan of care for the patient who requires palliation of symptoms.

Purpose of Conference

To educate healthcare providers regarding the diagnosis, treatment and management of hematology/ oncology patients across the continuum of care and to provide a forum for interdisciplinary discussion of challenging hematology/oncology issues to include current research, best practice and clinical practice guidelines.

Target Audience

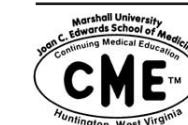

Primary care physicians, physician assistants, residents, medical students, nurses, pharmacists and other healthcare providers interested in cancer patient management.

Physician Continuing Education Credit

Marshall University Joan C. Edwards School of Medicine designates this educational activity for a maximum of 4.5 AMA PRA Category 1 Credits TM. Physicians should only claim credit commensurate with the extent of their participation in the activity. (Session registration and evaluation are required.)

Nursing Continuing Education Credit

Cabell Huntington Hospital is an approved provider of continuing nursing education by the West Virginia Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. 4.5 contact hours will be provided.

This activity has been planned and implemented in accordance with the Essentials and Standards of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Marshall University Joan C. Edwards School of Medicine and Cabell Huntington Hospital. Marshall University Joan C. Edwards School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Rodger Blake, MD

Department of Diagnostic Radiology
Director of MRI Services

Aneel Chowdhary, MD

Assistant Professor, Section
of Hematology/Oncology
Marshall University JCESOM
Edwards Comprehensive Cancer Center

Larry Geier, MD

Medical Oncologist and Director,
Genetic Risk Evaluation and Testing Program
Kansas City Cancer Center
Assistant Professor of Medicine,
Division of Oncology
University of Kansas Cancer Center

Lynne Goebel, MD, FACP

Professor, Department of
Internal Medicine & Geriatrics
Marshall University JCESOM

Aamir Hussain, MD

Assistant Professor, Department
of Radiation Oncology
Marshall University JCESOM
Edwards Comprehensive Cancer Center
Director of Stereotactic Radiosurgery
and Stereotactic Body Radiotherapy

Mohamad Khasawneh, MD

Assistant Professor, Section
of Hematology/Oncology
Marshall University JCESOM
Edwards Comprehensive Cancer Center

Charles McCormick, MD

Associate Professor, Section
of Family and Community Health
Marshall University JCESOM
Medical Director, Hospice of Huntington

Rajesh Sehgal, MD, FACP

Assistant Professor, Section
of Hematology/Oncology
Marshall University JCESOM
Edwards Comprehensive Cancer Center

Maria Tria Tirona, MD, FACP

Director of Medical Oncology,
Edwards Comprehensive Cancer Center
Professor of Medicine and Chief,
Section of Hematology/Oncology
Marshall University JCESOM
Edwards Comprehensive Cancer Center
