Health Care Pipeline Initiative

A resident summer camp for WV, KY, OH students entering the 9th, 10th, 11th and 12th grades who are interested in health care, health, pharmacy, nursing, health informatics and engineering careers.

June 12 - July 8, 2017

The HCPI program is funded in part by Higher Education Policy Commission Diversity Grant

The HCPI program is funded in part Army Educational Outreach Program

The Marshall University Health Care Pipeline Initiative program is all about learning what **HEALTH, ENGINEERING TECHNOLOGY** and **RESEARCH** professionals do each day participating activities that highlight their job duties.

The program objectives include:

- Learn from a variety of health care, engineering and technology professionals.
- Learn about the educational requirements, skills, typical job duties, and personal qualities of specific health professionals and para-professionals.
- Participate in interactive hands-on activities that highlight the skills, equipment, technology and resources used by STEM professionals.
- Increase awareness and understanding of the care setting and structure of the career environment.
- Students who participate in the program enjoy four weeks of fun and interaction on the Marshall University campus.
- Participate in field trips, career day and speakers from Business, industry, civil, Army and Department of Defense STEM careers
- All meals and snacks provided
- Certificate of participation
- College prep workshops
- Intensive instruction provided by Marshall University, faculty staff and current health care students

Eligibility Requirements:

To be considered for the program, students must be entering 9th through 12th grade and submit the following:

- 9th - 12th Grade
- Application Form
- Short Answer Form
- Copy of Transcript or Grade Card
- Recommendation letter from a teacher or guidance counselor.

All students will be notified in May whether they have or have not been accepted into the program. A committee will review all applications. Space is limited to 25 students.

Students selected will provide their own transportation to and from the camp.

Transportation will be provided to all Marshall University campus sites.

The careers covered in the camp will highlight those health sciences and engineering programs offered at Marshall University.

Students will stay in a secure residence hall on the Marshall University campus and will be accompanied by program staff at all times.

Students are required to abide by all university housing rules. Activities will be held on Marshall University main campus, School of Medicine campus and School of Pharmacy campus.

Upon acceptance into the Health Career Pipeline Initiative program, students will receive registration forms that are required to be completed before the student is officially registered for the program.
