Sample Disclosure Statement:

The Accreditation Council for Continuing Medical Education (ACCME) requires transparency regarding financial relationships that may influence the educational content provided. We hereby disclose that all individuals in control of Continuing Medical Education (CME) content, including planners, directors, faculty, and coordinators of [Name of Institution/Organization], have provided disclosure of their relevant financial relationships.

As part of our commitment to compliance with ACCME standards, we have collected and reviewed all disclosure information using the ACCME disclosure template. We confirm that all relevant financial relationships have been disclosed by the individuals responsible for developing and delivering CME activities.

Furthermore, we have established procedures to update this disclosure information periodically, ensuring ongoing compliance with ACCME requirements. Should there be any changes in financial relationships throughout the duration of educational activities, individuals in control of CME content are obligated to promptly update their disclosure information.

Since there were no relevant ineligible companies involved in planning, controlling or delivery of our CME activities, no RFR mitigation was needed.

We strive to maintain transparency and uphold the highest standards of integrity in delivering CME activities. If you have any questions or concerns regarding financial relationships or disclosures, please do not hesitate to contact us.

Thank you for your participation in our CME activities.

Sincerely,

Kindest regards, Dr. Ranavaya

Mohammed Ranavaya, MD, JD, MS, FRCPI, FFOM, CIME
Professor Occupational, Environmental, and Disability Medicine.
Associate Dean, CME
Joan C. Edwards School of Medicine Marshall University
President, American Board of Independent Medical Examiners
