

Poster Finalists and Winners

Basic Science

Yanling Yan (Winner)

Na/K-ATPase Signaling in Dahl R and S Rats; A potential for salt sensitivity

Miranda B. Carper (Finalist)

Investigation of RGS16 mediated inhibition of pancreatic cancer metastasis

Clinical Vignette

Douglas von Allmen (Winner)

Use of Polyflex Stents in Refractory Benign Esophageal Strictures

Jared Brownfield (Winner)

Ectopic Pregnancy in a previous cesarean section scar: case report

Aviral Roy (Finalist)

Cryptococcal Renal Invasion as a complication of disseminated cryptococcal disease in an AIDS patient

Ross Dechant (Finalist)

Wernicke's Encephalopathy in a patient following bariatric surgery

Kacey O'Malley (Finalist)

Diagnosis and treatment of anaplastic ependymoma in an infant

Jillian Douglas (Finalist)

Elevated PTH: True or false positive

Clinical Research

Jonathon Salava (Winner)

Constraining function as a means of reducing OR traffic

Jennifer Gerlach (Finalist)

Assessment of nurse satisfaction with bedside nurse presence at family centered rounds

Oral Winners

Basic Science

M. Allison Wolf

Benzyl isothiocyanate enhances chemotherapy and reduces migration and invasion of head and neck squamous carcinoma cells

Clinical Research

Kelli Brown

Tic disorders and functional constipation as complicating conditions in children presenting for evaluation for attention deficit hyperactivity disorder

Education

Iliia Iliev

Teaching the millennial student: how well have the baby boomer/generation x teachers adapted in an academic orthopaedic department?
