

This summer, explore health, research, technology and engineering careers while making new friends and enjoying a college campus experience!

A resident summer camp for high school students in West Virginia, Kentucky and Ohio who are interested in health care, pharmacy, nursing, health informatics and engineering careers.

The **Health Care Pipeline Initiative** offers an outstanding immersion experience for high school students interested in a variety of science, research, technology, health and engineering career opportunities.

HEALTH CARE PIPELINE INITIATIVE

Eligibility Requirements:

To be considered for the program, students entering the 9-12 grade must submit the following:

- Application form
- Short answer form
- Copy of transcript or grade card
- Recommendation letter from a teacher or guidance counselor

All students will be notified in May whether they have been or have not been accepted to attend the program.

THE PROGRAM OBJECTIVES:

- Learn from a variety of health care, engineering and technology professionals
- Explore viable career options
- Learn about the educational requirements, skills, typical job duties, and personal qualities of specific health professionals and para professionals
- Participate in interactive hands-on activities that highlight the skills, equipment, technology and resources used by science, technology, engineering, mathematics (STEM) professionals
- Increase awareness and understanding of the care setting and structure of STEM workplaces where many health professionals and engineering professionals work
- Enjoy four weeks of fun and interaction on the Marshall University campus

- Participate in field trips, career day and speakers from business, industry, civil, Army and Department of Defense STEM careers
- Receive certificate of participation
- Participate in College PREP Workshop to include SAT/ACT test preparation
- Receive personalized attention from Marshall University faculty, staff and graduate students

Students must provide their own transportation to and from campus.

Transportation will be provided to all Marshall University campus sites during the camp.

The careers covered in the camp will highlight health sciences, engineering, technology and research programs offered at Marshall University.

Students will stay in a secure resident hall on the Marshall University campus and will be accompanied by program staff at all times. Students are required to abide by all university housing rules. Activities will be held on Marshall

University's Huntington campus, including the School of Medicine and School of Pharmacy.

Upon acceptance into the Health Career Pipeline Initiative program, students will receive registration forms that are required to be completed before the student is officially registered for the program.
