			physics or computer science department	
Limited submission program Internal deadline: Aug.	Simons Foundation Mathematics and Physical Sciences	mathematical model-based research in the life sciences	At the time of the appointment as an Investigator (by Aug. 1, 2017), Stanford assistant professors with PI eligibility should be within 5 years of the start of their first faculty appointment ((UTL, MCL, and NTL-Research appts)	Simons Investigators in the Mathematical Modeling of Living Systems (MMLS) Limited to 2 applicants \$500K+ over 5 years No citizenship restriction Internal submission guidelines
Aug.	Arthritis Foundation	osteoarthritis (OA), rheumatoid arthritis (RA), and juvenile arthritis (JA).	Faculty with PI eligibility	Innovative Research Grant\$100,000/yr for up to 2 yrs. Arthritis Foundation Investigator Award \$100K/yr for up to 5 yrs More >>
Aug.	Amyloidosis Foundation	Amyloidosis - a disease that occurs when substances called amyloid proteins build up in organs	Assist. with PI eligibility Instructors	Junior Research GrantProgram \$50K total funding More >>
Aug.	Benign Essential Blepharospasm	Neuroscience; research directly related to blepharospasm or Meige's Syndrome, both forms of cranial dystonia	Faculty with PI eligibility	Research Grant Up to \$150,000 No citizenship restriction More >>
Aug.	Amyloidosis Foundation	Basic biomedical and clinical research in systemic amyloidosis-a disease that occurs when substances called amyloid proteins build up in organs	Instructors Assist. prof. w/ PI eligibility	Research Grant Program \$25K/yr x 2 years More >>
Limited Program Internal deadline: Aug.	Parker B. Francis Fellowship	pulmonary, critical care, or sleep medicine. Lung biology or lung disease	Postdoctoral fellows Academic staff-research Instructors Early assist. prof. with PI eligibility (see the guidleines)	Parker B. Francis Fellowship \$50,000 for the first year, \$52,000 for the second and \$54,000 for the third. Citizenship requirement: A citizen or permanent residents of the U.S. or Canada or have a permanent residency application on file at the time of application with the U.S. or Canadian Immigration Services (note: because this is a career development grant it is exempt from the RPH 1.8 policy about non-discrimination in research). Internal submission guidelines
Aug.	Lymphoma Research Foundation	cancer, lymphoma	Assist. Prof. with PI eligibility Advanced fellows	Young Investigator Grants \$225K over 3 yrs To support advanced fellows and junior faculty No citizenship restriction More >>
Aug.	Lymphoma Research Foundation	cancer, lymphoma	Assist. prof. with PI eligibility See additional	Lymphoma Clinical Research Mentoring Program No citizenship restriction More >>

September			trainees who are at least in their second year of the one of the ACGME accredited subspecialty fellows programs: Hematology/oncol ogy, Hematology, Medical Oncology, Radiation Oncology, or Hematopathology	
Sept. 1, 2016	Musculoskeletal Transplant Foundation	advance the science of musculoskeletal transplantation, allografts and the biological reconstruction of musculoskeletal tissues.	1) Junior Investigator is one who, as a PI, has not been awarded a grant from a federal agency or a foundation. The applicant must be a Ph.D. and/or M.D. whose post- doctoral studies or residency has been completed. (submit through your RPM) Applicants with an M.D. or O.D. from an accredited US or Canadian medical school. To support orthopedic clinicians who are within 5 years of completing their residency and fellowship	1) Junior Investigator Grants Up to \$100K A Junior Investigator is one who, as a PI, has not been awarded a grant from a federal agency or a foundation. The applicant must be a Ph.D. and/or M.D. whose post-doctoral studies or residency has been completed. (submit through your RPM) 2) Career Development Award up to \$100K/yr for up to 3 yrs Applicants with an M.D. or O.D. from an accredited US or Canadian medical school. To support orthopedic clinicians who are within 5 years of completing their residency and fellowship More >>
Sept. 1, 2016	Musculoskeletal Transplant Foundation	advance the science of musculoskeletal transplantation, allografts and the biological reconstruction of musculoskeletal tissues.	Faculty with PI eligibility	Established investigator \$100K/yr x 3 yrs Eligibility faculty with PI eligibility who have previously received funding from a federal agency or a foundation More >>
Sept. 1, 2016	Paralyzed Veterans of America (PVA) Education Foundation	Neuroscience; Spinal cord injury Supports basic science, clinical applications and design and development of new or improved rehabilitative and assistive devices	Faculty with PI eligibility	Grants up to \$75K for 1 yr or up to \$150K for 2 yrs No citizenship requirement More >>
Letter of intent (required): Sept. via proposal central Full proposals (by invitation only):	The E. Mathilde Ziegler Foundation for the Blind	neuroscience; vision research	Assist. prof. with PI eligibility (who have not received an R01)	Research Grant \$80K/yr x 3 yrs (\$240K) No citizenship requirement but research must take place in the U.S. More >>

Nov. via proposal central				
Letter of intent (required): Sept.	The Sturge-Weber Foundation (The SWF)	neuroscience; Sturge- Weber syndrome	Faculty with PI eligibility	Pilot Grant \$30K/yr for up to 2 years More >>
Full Proposal (by invitation only) deadline: Dec.				
Pre-proposal: Sept. 6, 2016 Full proposal by invitation only: Full proposal (by	Burroughs Wellcome Fund	Candidates are expected to draw from their training in a scientific field other than biology to propose innovative approaches to answer important	Postdoctoral fellow Candidates must hold a Ph.D. degree in one of	Career Awards at the Scientific Interface \$500,000 Postdoctoral Fellow to faculty transition award See additional criteria.
invitation only): Jan. 9, 2017 *because of the holiday closure		questions in the biological sciences.	the fields of mathematics, physics, chemistry, computer science, statistics, or	This is open to U.S. and Canadian citizens or permanent residents as well as temporary residents with certain visas (see the guidelines for details)
period you will need to submit your full application materials & PDRF form to your RPM/RMG or OSR by early December.			engineering (see the guidelines for additonal criteria)	More >>
Letter of intent required for Development Grants (and optional for Idea Grants) Sept. Full proposal: Oct.	Barth Syndrome Foundation	genetic disorder, primarily affecting males. It is caused by a mutation in the tafazzin gene (TAZ, also called G4.5), resulting in inborn error of lipid metabolism. Barth syndrome (BTHS) is a serious X-linked genetic condition associated with cardiomyopathy, neut ropenia, skeletal muscle weakness, exercise intolerance, growth delay, and diverse biochemical abnormalities (including defects in mitochondrial metabolism and phospholipid biosynthesis).	Assist. prof. with PI eligibility Faculty with PI eligibility (established investigators new to BTHS)	Research Grant Program Development Grant \$100K maximum for 2-3 yrs Idea Grant (\$50K max. over 1-2 yrs) More >>
Expression of interest: Sept. 6, 2016 11:59pm Paris Time (via proposal central)	Fondation Leducq	Cardiovascular disease(Each network is built around a transatlantic research alliance involving two network coordinators, the European Coordinator and the North American Coordinator. up to \$6M over 5 yrs)	Faculty with PI eligibility	Transatlantic Networks of Excellence in Cardiovascular Research Program See the guidelines for criteria. More >>
Preliminary proposal deadline: Sept.	National Tourette Syndrome Association	Tourette syndrome	Faculty with PI eligibility	Research Grant Awards up to \$75,000 for 1 year or up to \$150,000 for two years More >>
Sept. 7, 2016 (see also April)	CFF-Cystic Fibrosis Foundation	cystic fibrosis	Pls may only submit one Pilot and Feasibility grant in 2016	Research Awards Up to \$100K/yr x 2 years No citzenship restriction More >>

			(either spring or fall cycle)	
Concept Paper (required) deadline: Sept. Full proposal (by invitation only) deadline: Oct.	Thrasher Research Fund	Child health: "clinical, hypothesis-driven research that offers substantial promise for meaningful advances in the prevention, diagnosis, and treatment of children's diseases, particularly research that offers broadbased applications. Note: A mentor may have only one Thrasher Research Fund Early Career Awardee at a time.	1. Physicians who are in a residency/fellowsh ip training program, or who completed that program no more than one year before the date of submission of the Concept Paper 2) Post-doctoral researchers who received the doctoral level degree no more than three years prior to the date of submission of the Concept Paper. Submit proposals through your dept's RPM.	\$26,750 award for up to two years No citizenship restriction More >>
REVISED: Abstract- letter of intent (required) deadline: Sept. via proposal central Full application (by invitation only): Oct. via proposal central	Alliance for Cancer Gene Therapy Foundation	Cancer; development of cell and gene therapy approaches to the treatment of cancer. Per OTL: "The ACGT YIA has some special terms and conditions under 'Institutional Policy' (page 2)*. If you are subsequently invited to submit a full proposal, your Research Process Manager (RPM) will need to include a statement in the proposal cover letter for the full application that states we reserve the right to negotiate the terms at time of award."	Assist. prof. with UTL appointments (see the guidelines)	Young Investigator Award \$250K including 10% indirect costs over 2-3 years No citizenship restriction More >>
Letter of intent (required) deadline: Sept. 12, 2016 Full proposal (by invitation only): Nov. 14, 2016	NORD-National Organization for Rare Diseases Research Grants	Various rare diseases	Faculty with PI eligibility	Various one year grants: Alveolar Capillary Dysplasia - One (1) grant of up to \$50,000 Appendix Cancer and Pseudomyxoma Peritonei - Two (2) grants of up to \$50,000 Autoimmune Polyglandular Syndrome Type 1- One (1) grant of up to \$100,000 for scientific and/or clinical research studies related to . Homocystinuria - One (1) grant of up to \$30,000 Malonic Aciduria - One (1) grant of up to \$30,000 Stiff Person Syndrome - One (1) grant of up to \$30,000 No citizenship restrictions More >>
Letter of intent (required) deadline: Sept. 12, 2016 via proposal central	American Association for Cancer Research	cancer: To fund creative, paradigm-shifting cancer research from young researchers (faculty*) that	*Assist. prof. with UTL and MCL faculty appts who held their position	NextGen Grants for Transformative Cancer Research \$450K over 3 years

Full proposal (by invitation only) deadline: Dec. 19, 2016 via proposal central		may not be funded through conventional channels.	for no more than 3 years [not appointed prior to July 2, 2014]	Guidelines: go to this <u>proposal</u> <u>central webpage >></u> and click on the document icon next to the RFP title to download the guidelines
Sept. 13, 2016 via proposal central	OREF-Orthopaedic Research and Education Foundation	orthopaedic surgery; This grant will provide an annual stipend of \$20,000 to supplement the investigator's salary, and to compensate for the projected loss of income resulting from the recipient's reduced clinical productivity.	orthopaedic surgeons licensed to practice in the U.S. who have received recent K08 or K23 funding from the NIH, or equivalent mentored research funding.
