

MS1 Summer Stipend Projects 2015

JCESOM

Student	Title of Project	Research Mentor
Adam Shaver	Role of Metabolic Biomarkers in Early detection of Diabetic Cardiomyopathy in West Virginian population.	KOMAL SODHI
Aladdin Tarakji	Retrospective analysis of outcomes from use of a novel carbon fiber implant for oncologic and fracture outcomes	Felix Cheung
Alexander Vance	Review Manuscript	Franklin Shuler
Alexandria Cremeans	The effect of the implementation of IV Acetaminophen on hospital length of stay after surgery	Derek Grimm
Andrew Blanco	HE NA/K-ATPASE SIGNALING AND SALT-SENSITIVITY	Jiang Liu
Andrew Feyh	Role of Metabolic Biomarkers in Early detection of Diabetic Cardiomyopathy in West Virginian population.	KOMAL SODHI
Andrew Vess	The effect of the implementation of IV Acetaminophen on hospital length of stay after surgery	Derek Grimm
Anu Pokharel	Developmental and behavioral diagnoses in homeless children at the City Mission : a five year study of incidence and response to care coordination	James Lewis
Aubrey Fleming	Nutritional Intake among medical students	Lynne Goebel
Bina Malapur	Genetic profile of platinum resistance in ovarian carcinoma, the role of cancer stem-like cells.	Sarah Miles
Brad Gillon	Induction of Tolerance through Vascularized-Thymus Xenotransplantation in a Pig to Non-Human Primate Model	Kazuhiko Yamada
Brandon Merritt	Antibiotic prescribing by pediatricians in their office vs. the same pediatricians in a pediatric Now care.	Joe Evans
Brooke Andrews	Profile of neonatal abstinence syndrome in neonates requiring clonidine use.	Sean Loudin
Caitlin Ensor	Nutrition Assessment in the Lipid Clinic	Kevin Friedman, Sarah de Ferranti
Casey Hazlewood	Growth factor transport and accelerated bone elongation in childhood obesity	Maria Serrat
Christian Warner	Do Demographic and Health Variables as well as Pre-surgery functional status Predict the Outcomes at 6 and 12 Months Following Total Knee Replacement?	Franklin Shuler
Christopher Bird	Retrospective analysis of the use of the X-Ream system for avascular necrosis of the femoral head	Felix Cheung
Deena Hossino	Improving resident confidence and competence during resuscitation with infant simulation	Susan Flesher
Ganga Navada	The effect of the implementation of IV Acetaminophen on hospital length of stay after surgery	Derek Grimm
Hannah Ashworth	Do Demographic and Health Variables as well as Pre-surgery functional status Predict the Outcomes at 6 and 12 Months Following Total Knee Replacement?	Franklin Shuler

MS1 Summer Stipend Projects 2015

JCESOM

Heath Blankenship	Identifying dholine-binding proteins (CBP) associated with pathogenesis in selected Streptococcus pneumoniae isolates	Nancy Norton, Maurice Mufson
Henry Heisey	Patient Choices for Prostate Cancer Screening: A Decision Analysis	James Jensen
Jenna Barbour	Nutritional Intake among medical students	Lynne Goebel
Jeremy Adkins	Review Manuscript	Franklin Shuler
Justin Pacor	Miami Heart Study at Baptist Health South Florida	Khurram Nasir
Kathryn Thornton	Maximizing the Educational Benefits of Ambulatory Visits for Third Year Medical Students	Aaron McGuffin
Keegan Sturgill Mullins	Examining undergraduate college students' perception of HPV and esophageal cancer risk	Sara Corwin
Kimiknu Mentore	Knowledge, Attitudes, and Beliefs of Chronic Liver Disease & Hepatitis C screening, diagnosis and treatment barriers in underserved populations in Washington DC	Kirti Shetty
Lauren Burley	Improving Patient Handoffs: A Standardization Process	Susan Flesher
Leah Harrell	Medical Writing	Dilip Nair
Lucas Bracero	Beneficial role of anti-oxidants in attenuating fatty liver and metabolic syndrome.	KOMAL SODHI
Melissa Saab	Nutritional assessment of Elderly born in Appalachia compared to those born outside of Appalachia	Lynne Goebel
Michael Matheney	Developmental and behavioral diagnoses in homeless children at the City Mission : a five year study of incidence and response to care coordination	James Lewis
Mohit Harsh	Investigating the effect of Vitamin D deficiency on proliferation and apoptosis in men undergoing radical prostatectomy	Adam B. Murphy
Niccia Valentine	Anxiety: Incidence, type, treatment and rates of improvement in pediatric patients with ADHD	James Lewis
Olumayowa Dayo	TBA	Richard Crespo
Rachael Hager	SmartPhone Application for Congestive Heart Failure Patients	Christine Gilkerson
Rachael Whitley	Clinical and translational research pertinent to health care diparities in West Virginia.	Uma Sundaram
Raj Singh	Patient Choices for Prostate Cancer Screening: A Decision Analysis	James Jensen
Stacee Lewis	Antibiotic prescribing by pediatricians in their office vs. the same pediatricians in a pediatric Now care.	Joe Evans
Tamara (Trout) Murphy	Role of Mitochondrial Protein Synthesis in Heart Disease	Emine Koc
Tariq Latif	Beneficial role of anti-oxidants in attenuating fatty liver and metabolic syndrome.	KOMAL SODHI
Travis Parkulo	Clinical and translational research pertinent to health care diparities in West Virginia.	Uma Sundaram

MS1 Summer Stipend Projects 2015

JCESOM

William Rollyson	To determine the anti-angiogenic activity of alpha7-nicotinic receptor antagonist memantine in vivo in nude mouse models	Piyali Dasgupta
Yuto Nakafuku	Genetic profile of platinum resistance in ovarian carcinoma, the role of cancer stem-like cells.	Sarah Miles
Zach Moore	Clinical and translational research pertinent to health care disparities in West Virginia.	Uma Sundaram
Zachary Hunter	A Quality Improvement Project to Decrease the Use of Unnecessary Intravenous Antibiotics in Patients Admitted with Bronchiolitis	Joe Evans
Zeynep Koc	Role of Mitochondrial Protein Synthesis in Heart Disease	Emine Koc
Paulina Skaff	Description of Cardiovascular Disease in a Rural HIV Positive Population in Southern West Virginia	Shelda Martin
