

Drug Screen:

Our affiliate hospital, Cabell Huntington, requires all visiting students complete a 10-panel drug screen prior to approval of any rotation. Items the test must include are as follows:

<u>Test</u>
Amphetamines (includes amphetamine and methamphetamine)
Barbiturates
Benzodiazepines
Cannabinoid
Cocaine
Opiates (Includes codeine, morphine, hydromorphone, hydrocodone)
Oxycodone/Oxymorphone
Phencyclidine
Methadone
Propoxyphene

If you have completed a drug screen within 1 year of the approved rotation start date, you may include those results. Results should be emailed to Robbie Nance at nance37@marshall.edu.

If you have any questions regarding this test, please contact Mr. Nance.

Thank you!
