

Poster Case

Student

Title: Rickets Treatment Improves more than Bone Health in Toddler with Autism Spectrum Disorder
Name: Leah Stalnaker
Department: Pediatrics

Resident

Title: Native Aortic Root Thrombosis in Hypoplastic Left Heart Syndrome
Name: Rabia Noor
Department: Pediatrics

Poster Basic Science

Student

Title: Targeting heat shock protein 90 to alter evolution of aggressive cancer phenotype
Name: Nickolas Bacon
Department: Biomedical Sciences

Post-Doctoral

Title: Inhibiting Na/K-ATPase Oxidant Amplification Loop Regulates Aging in C57B16 Old Mice
Name: Rebecca Klug
Department: Surgery

Poster Clinical Science

Student

Title: The Effects of Gabapentin on the Withdrawal Symptoms of Neonates Prenatally Exposed to Opioids
Name: Will Lester
Department: Pediatrics

Post-Doctoral

Title: Psychosocial and Physiologic Characteristics of Patients with Non-epileptic Events: A Retrospective Study of Rural Patients
Name: Dipali Nemade

Department: Internal Medicine

Oral Basic Science

Runner-Up

Title: Characterization of Renal Cytotoxicity and Oxidative Stress Induced by the Radiocontrast Agent Diatrizoate (DA) in Human Proximal Tubular Cell Line

Name: Dakota Ward

Department: Biomedical Sciences

Winner

Title: In vivo brain engineering for neurological disorders

Name: Arrin Brooks

Department: Biomedical Sciences

Oral Clinical Science

Runner-Up

Title: Dose-Escalated Salvage Stereotactic Body Radiation Therapy (SBRT) for Locally-Recurrent Previously-Irradiated Head and Neck Squamous Cell Carcinoma Trends Toward Improved Local Control and Overall Survival

Name: Raj Singh

Department: Radiation Oncology

Winner

Title: Reducing Opioids with Enhanced Recovery After Cesarean Delivery

Name: Kevin White

Department: Obstetrics and Gynecology
