JOAN C. EDWARDS SCHOOL OF MEDICINE
MEDICAL STUDENT GRADING POLICIES**

I. Introduction

It is the policy of the Joan C. Edwards School of Medicine based upon the recommendations of the Liaison Committee on Medical Education (LCME) that all enrolled medical students are provided information regarding the JCESOM grading systems, assessments and narrative summaries.

II. Definitions

From the LCME Structures and Functions of a Medical School, the following standards have been provided:

Standard 8.7 Comparability of Educational/Assessment: A medical school ensures that the medical curriculum includes comparable educational experiences and equivalent methods of assessment across all locations within a given course and clerkship to ensure that all medical students achieve the same medical education program objectives

Standard 9.8 Fair and Timely Summative Assessment: A medical school has in place a system of fair and timely summative assessment of medical student achievement in each course and clerkship of the medical education program. Final grades are available within six weeks of the end of a course or clerkship.

III. Policy Statement and Procedure

1. Policy Statement

a. Grading System

- i. There are three grading systems within the Marshall University Joan C. Edwards School of Medicine.
 1. For the two pre-clinical years (MS1 & MS2), all required courses are awarded letter grades (A, B, C, and F).
 2. During the Clinical Clerkship (MS3) year, all clerkships utilize the Honors, Pass, Fail grading system.
 3. During the final (MS4) clinical year, courses are awarded both letter grades (A, B, C, and F) and Pass/Fail grades as outlined in the course syllabus.
- ii. The third year clinical clerkship departments will determine the grading bases to be used to obtain Honors, Pass and Fail within the clinical clerkship. Grading bases cannot be changed after the academic year has begun.
- iii. Final grades will be entered in the MUSOM Scheduling system by the JCESOM Registrar and submitted electronically or via grading sheets to the Marshall University Registrar's Office during open grading periods.

- iv. Students cannot begin the next academic year without satisfactorily completing the previous academic year's coursework and requirements to advance to successfully. Failure to complete course work without fulfillment of these criteria will result in a grade of "Fail". The student will then be referred to the Academic & Professionalism Standards Committee for remediation, to repeat the course, or dismissal.
- b. Incomplete Grades
 - i. A grade of "I" (Incomplete) is given to indicate a student has not completed all course requirements.
 - ii. The incomplete grade is given at the discretion of the Clerkship or Course Director when due to extenuating circumstances preventing the student from completing the course requirements.
 - iii. Once the student has completed the requirements, the course director should notify the JCESOM Registrar to submit a change of grade form to the University Registrar's Office.
 - iv. Incomplete grades will revert to a grade of "F" if not completed within one year.
- c. Withdrawal from JCESOM
 - i. Students may choose to withdrawal from courses at any time with approval from the Office of Medical Education. A student's request to withdrawal may not be granted solely because a student is failing a course(s); extenuating non-academic circumstances must also be documented to justify late withdrawal.
 - ii. To withdrawal from the Marshall University Joan C. Edwards School of Medicine, a student must first meet with the Vice Dean of Medical Education. If the Vice Dean is not available, the student should request a meeting with the Dean of the Medical School.
 - iii. If the withdrawal is approved, there will be a W (Withdrawal) entered upon a student's record when the student officially withdraws from a course or the school of medicine. The W will be entered on the transcript irrespective of the student's academic standing in that course.
- d. Submission of Grades
