\*A registered entity transferring an amount of select toxin otherwise excluded under the provisions of 42 CFR 73.3(d) must:

- (1) Transfer the amounts only after the transferor uses due diligence and documents that the recipient has legitimate need (i.e., reasonably justified by a prophylactic, protective, bona fide research, or other peaceful purpose) to handle or use such toxins; and
- (2) Report to CDC if they detect a known or suspected violation of Federal law or become aware of suspicious activity related to a toxin listed in [42 CFR 73.3\(d\)](#).
