

## **BS/MD Selection Procedure Document – Addendum 2020-2021 Admissions Cycle**

Due to the COVID-19 pandemic, the application packet as noted in the current procedural document will include an additional requirement for the 2020-2021 admissions cycle. The applicant must take the CASPer exam as a part of the application package for the 2020-2021 admissions cycle and the score must be submitted by the application deadline date of January 15, 2021. The admissions committee will consider the CASPer score in context with the other qualifications for a holistic evaluation of the applicant. In addition, the on campus interview as noted in the procedural document will be converted to a virtual interview for the safety of all participants, and family members will not be included in the interview process for this cycle. There will not be an in-person campus tour as noted in the procedural document, although there may be a virtual tour provided to the applicant if available.
