

Oral Presentations

Best Post-Doctoral/Resident Oral Presentation

Jinju Wang, PhD: Compromised endothelial progenitor cell exosomal communication with endothelial cells in hypertensionischemia conditions

Best MD/PhD Oral Presentation

Shanmuga Sundaram: Intestinal bile acid absorption is upregulated in a diet induced rat model of Obesity associated dyslipidemia

Best Graduate Student Oral Presentation

Ashley Cox: E-Cigarette Flavoring Agents Alter Mitochondrial Function and Autophagy Pathways in Human Kidney HK-2 Cells

Best Medical Student Oral Presentation

Mariah Morris: Quasi-experimental evaluation of liposomal bupivacaine (Exparel®) on inpatient opioid consumption in patient undergoing bariatric surgery

Poster Presentations

Best Post-Doctoral/Resident Poster Presentation

Pradeep Kumar Rajan: The α -1Na/K-atpase signalosome rescinded epigenetic changes in the progression of NASH-associated liver carcinogenesis

Best Graduate Student Poster Presentation

LaTaijah Crawford: Antinociceptive Effects of Decursinol on Cisplatin-Induced Chronic Neuropathic Pain

Best Medical Student Poster Presentation

Vijaya Lakshmi Sundaram: Adipose Derived Secretome Mediates the Regulation of SGLT1 in Rat Small Intestinal Epithelial Cells

Best Undergraduate Poster Presentation

Jared Youther: Effect of Cidec gene polymorphisms on obesity susceptibility in mice
