### Trainee Assistance Program (TAP)

GME offers a free service to all trainees to help deal with life's difficult circumstances. The TAP offers short term, solution focused counseling to assist each trainee. For more information please contact the TAP Coordinator, Melissa Long, at 304-526-1357.

### Program Administrator Spotlight

I have been a fellowship and medical student coordinator with Pediatrics Department for a little over three years. I started in the thick of Covid-19 and would not have survived without my partner in crime, Lisa Watts. I had never worked in this side of medicine but have come to really enjoy the challenge and uniqueness that it offers. I manage the Pediatric Hospital Medicine and Neonatology Fellowships. We recently were approved for another Fellowship in Developmental - Behavioral Pediatrics. I also work with the 3<sup>rd</sup> and 4<sup>th</sup> year medical students during their Pediatric rotations and am the assistant to the Department Chair. I love the chaos that is part of our everyday, as it is both challenging and rewarding. Explaining what we do as coordinators to someone new is always a challenge. I work very closely with our trainees, so it's bittersweet when they graduate. I know I owe many thanks to our Department chair, Dr. Susan Flesher, and my cohort, Lisa Watts, for their patience and guidance over the years. I had a big year in 2023, as I got married and built a house with my husband. We are looking forward to settling in and possibly expanding our family next year. I consider myself an outdoor enthusiast. You can often find me rappelling off the New River Gorge Bridge or kayaking down a new body of water.

## Resident Advisory Council Update

Thanks to the Office of Graduate Medical Education, we hosted another fun Resident Forum event in December 2023! Residents, fellows, and their families came together for an evening to watch the latest Hunger Games release with gift cards for cinema snacks provided courtesy of the Office of GME. RAC wishes to extend a special "thank you" to the entire staff of GME who work tirelessly to ensure our trainees' wellbeing! Thanks for all you do!

Like the construction on our medical campus and throughout Huntington - RAC is hard at work on our "CONSULTS 101" project. We are hoping for a collective effort by senior residents, fellows, and attendings to create this foundational learning tool for new trainees as they join our Marshall GME family! As of now, we remain on schedule to have the document created for orientation in June 2024! If you have any questions about our goals or how you can contribute to this project, please reach out!

Finally, we are coming into an exciting time for our medical students and residency programs as Match Day approaches. Residents and fellows, please be encouraging to our students during this time!

Best,

Becca

## Diversity & Inclusion

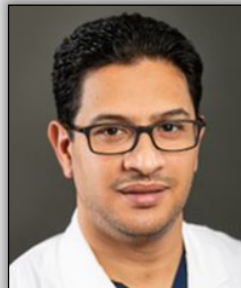

The Office of GME views diversity as a strength and is committed to creating a training experience to improve care and reduce inequities in the communities we serve. We work closely with the Office of Diversity & Inclusion to recruit, educate, and retain a diverse physician workforce to care for all patient populations. For more information, please contact

# - Resident Wellness -

TO HONOR AMERICAN HEART MONTH IN FEBRUARY, GME OFFERED BOX LUNCHES ON TUESDAY, FEBRUARY 20TH.

**As you may have noticed, the VA has begun offering daily meals for our residents and fellows. We appreciate their partnership in making trainee well-being a priority!**

## Wellness Updates

Meals were delivered to the residents and fellows rotating at the Hershel "Woody" Williams VA Medical Center and St. Mary's Medical Center in December. Also in December, to celebrate all our program coordinators do to support our trainees, GME gifted them with treats of their choice from Honey Baked Ham as well as embroidered jackets. Wellness panels continue to be offered; please note further information on the next page of this newsletter.
