

From our

DONORS & RECIPIENTS

You will have the opportunity to get to know your student and share this rewarding, yet challenging journey through medical school with them. Don't take our word for it, though. Hear what our donors and medical students say about their experience.

"Because of the opportunities the School of Medicine afforded me, I've always wanted to pay it forward to a deserving student. With this scholarship, I hope to help women in medicine and encourage others to do the same."

Dr. Kathryn Blair, Class of 2013

"Knowing that someone is as invested in my education as I am, and has the resources to help me with that goal, is truly incredible. The scholarship is more than monetary, it's another person who believes in my success to become a physician. I couldn't possibly be more thankful for that."

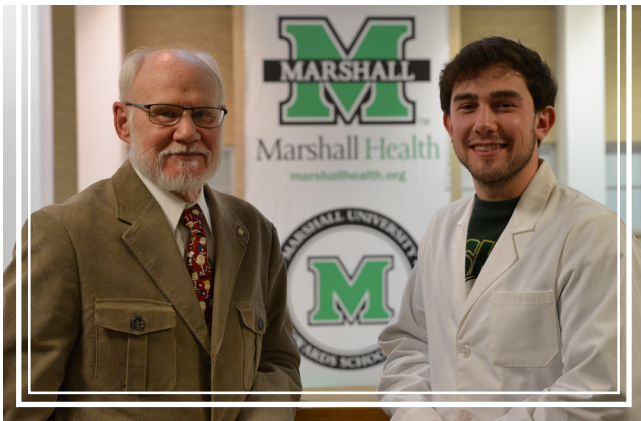

Blue Cremeans, Class of 2023
Recipient of the Dr. Kathryn Blair Scholarship

"Because of the School of Medicine, I have had a good life and successful medical career. Over the years, I have been helped by many people and now is my time to give back."

Dr. Tom Styer, Class of 1982

"I cannot thank Dr. Styer enough for investing in not only me, but our school and its community. I look forward to having the opportunity to give back to future generations."

Joe Chirico, Class of 2023
Recipient of the Dr. Tom Styer Scholarship

Adopt a Medical Student

Thousands of students apply annually to the Marshall University Joan C. Edwards School of Medicine with the dream of becoming a physician. For them and many prospective students, the cost of attending medical school, coupled with the burden of a six-figure debt, can make that dream seem daunting and almost unattainable.

At Marshall, more than 90 percent of medical students rely on federal student loans to supplement their finances, making scholarships more important than ever.

Adopting a medical student is a simple concept that's about more than financial support. It's about the lasting connection that develops between you and your students while sharing in their medical journey and watching them succeed.

How it

WORKS

Our Adopt a Medical Student program makes it possible to provide immediate financial support for a student while establishing an endowed fund that will make a lasting impact.

With just a five-year commitment of \$29,000, you can create a \$25,000 endowed scholarship while supporting a medical student with a \$4,000 scholarship over four years.

Understanding your

ANNUAL COMMITMENT

	Endowment	Scholarship	Annual Gift
Year 1	\$5,000	\$1,000	\$6,000
Year 2	\$5,000	\$1,000	\$6,000
Year 3	\$5,000	\$1,000	\$6,000
Year 4	\$5,000	\$1,000	\$6,000
Year 5	\$5,000	\$ -	\$5,000
Total	\$25,000	\$4,000	\$29,000

An Annual Gift of Your Choice

FOR YEARS TO COME

It takes six years for your \$25,000 endowment investment to accrue interest and generate an annual scholarship. At the end of year six, we hope you will continue adding to your investment with an annual gift of your choice. The larger the endowment, the greater the scholarship available to a deserving medical student.

Learn more about how your gift makes a difference.
