# INTERNATIONAL ASSOCIATION OF MEDICAL SCIENCE EDUCATORS

# Coaching and Remediation: Developing a Toolkit for Learners Who Struggle

Jean Klig, MD
Director, Clinical Learning Coaching Program
Marlow B. Harrison Director, Clinical Skills Coaching
Harvard Medical School

## Disclosure:

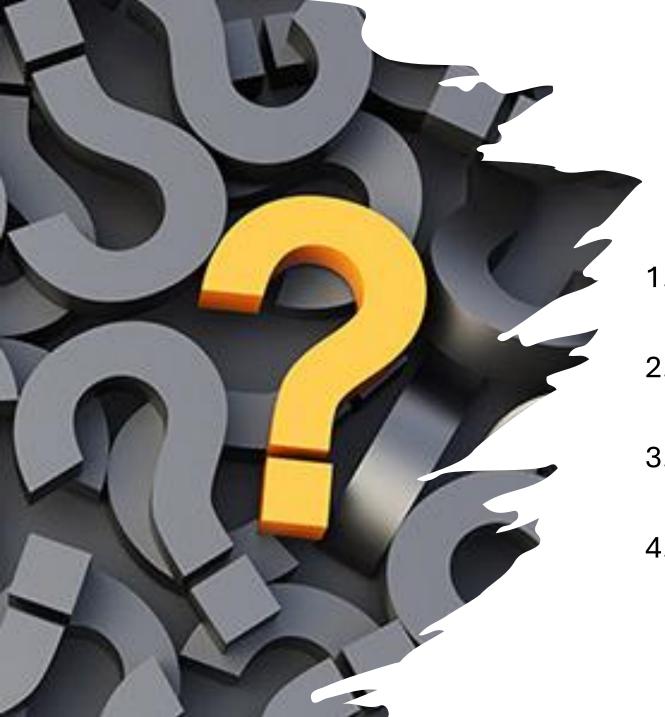

Nothing to disclose – only a dedication to coaching.

### **Precision Education:**

Are we prepared to increasingly "meet learners where they are"?

Santen SA, Lomis K, Richardson J, Andrews JS, Henderson D, Desai S V. Precision education in medicine: A necessary transformation to better prepare physicians to meet the needs of their patients. *AEM Educ Train*. 2024;8(6).

# Toolkit for Learners who Struggle

- How can we navigate a widening range of learner competency trajectories?
- 2. Who do we remediate in medical school and beyond, and how?
- 3. Where does coaching fit in for remediation?
- 4. What are key opportunities for next steps to "help every student across the finish line?"

# Toolkit for Learners who Struggle

- How can we navigate a widening range of learner competency trajectories?
- 2. Who do we remediate in medical school and beyond, and how?
- 3. Where does coaching fit in for remediation?
- 4. What are key opportunities for next steps to "help every student across the finish line?"

"ALL LEARNERS STRUGGLE - IT IS A **NORMAL** PART OF LEARNING"

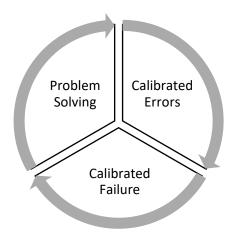

## Struggle in Learning can be Calibrated

"Desirable Difficulties"

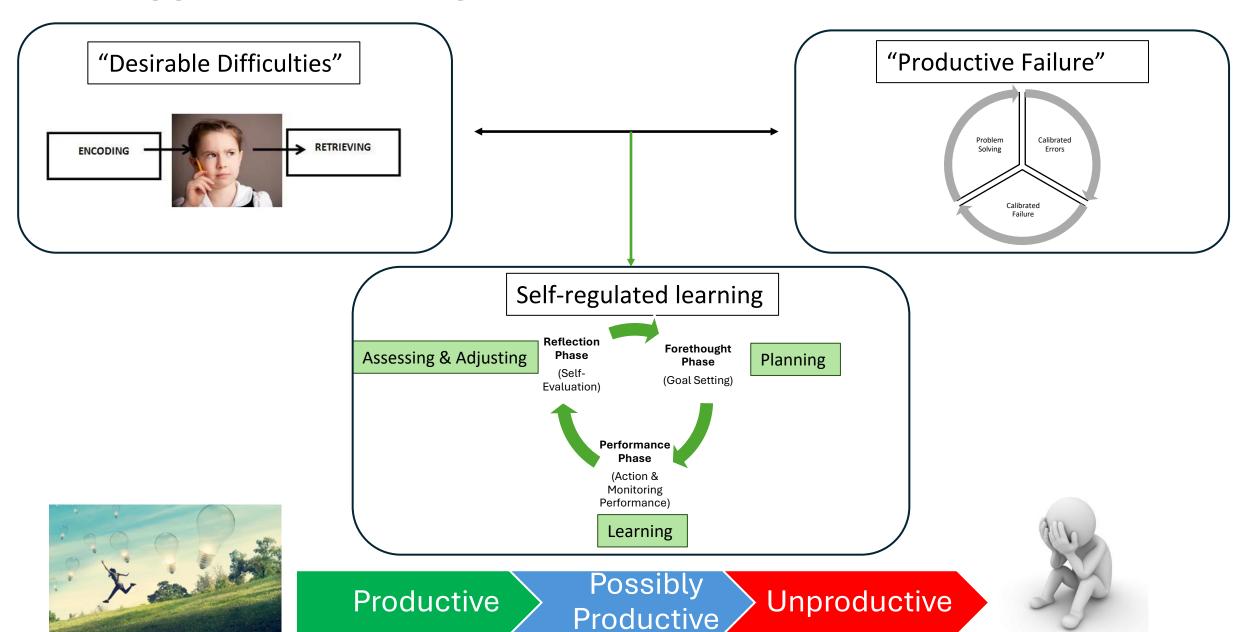

"Productive Failure"

Bjork, R. A., & Bjork, E. L. (2020). Desirable difficulties in theory and practice. *Journal of Applied Research in Memory and Cognition*, 9(4), 475–479.

Steenhof, N., Woods, N.N. & Mylopoulos, M. Exploring why we learn from productive failure: insights from the cognitive and learning sciences. *Adv in Health Sci Educ* **25**, 1099–1106 (2020).

### Struggle in Learning: from Productive to Unproductive

### Why Normalize Struggle?

["Struggle vs. Struggling"]

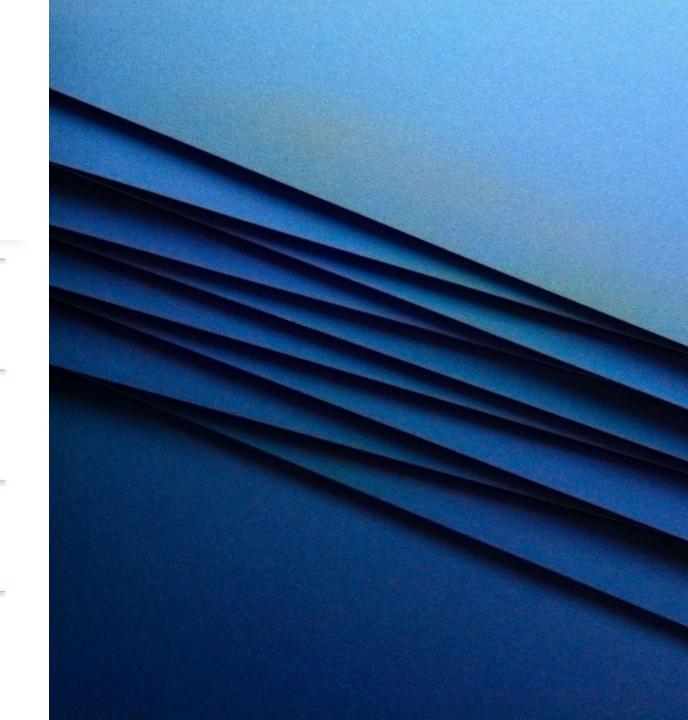

Struggle is normal and essential to growth. It should be anticipated.

Effectively supporting a student who is struggling requires a shift in culture.

Doing so builds much needed trust.

Consider the context in which a student is struggling. Gain an understanding of this context.

Embrace coaching as a normal response to a student who is struggling.

### Coaching Conversations in Remediation

"It was a mistake that
I failed the test ... I
will read more and do
fine next time"

"The OSCE standardized patient was awful. This made it hard for me to do well"

"I know that I missed required assignments.
I have been busy."

"I hear you. Let's look at the strengths in how and what you study"

"I understand. What was a positive even in this challenge?"

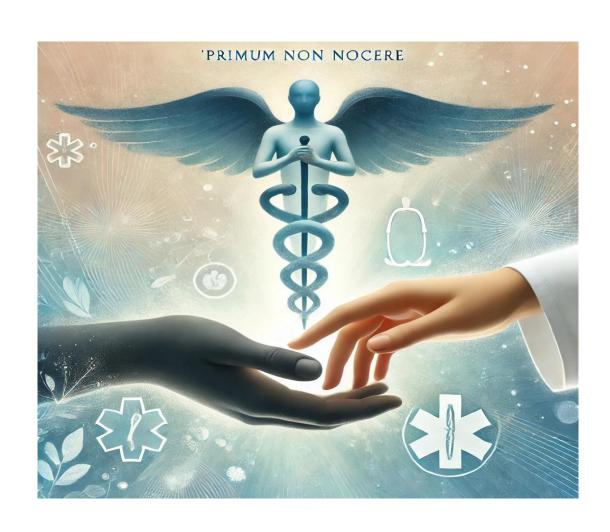

"I appreciate your perspective. What strengths can help here?"

# Toolkit for Learners who Struggle

- 1. How can we navigate a widening range of learner competency trajectories?
- 2. Who do we remediate in medical school and beyond, and how?
- 3. Where does coaching fit in for remediation?
- 4. What are key opportunities for next steps to "help every student across the finish line?"

How can we navigate a widening range of learner competency trajectories?

### Toolkit #1:

Normalize struggle and build a culture that invites and engages through it.

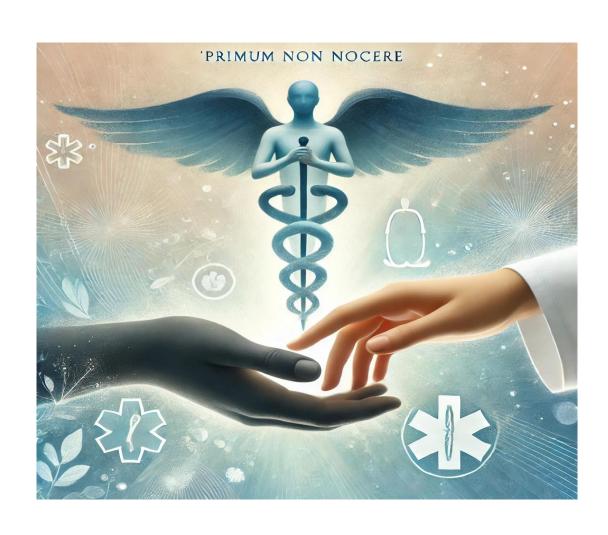

Who do we remediate in medical school and beyond, and how?

### Toolkit #2:

Remediate those who struggle unproductively.

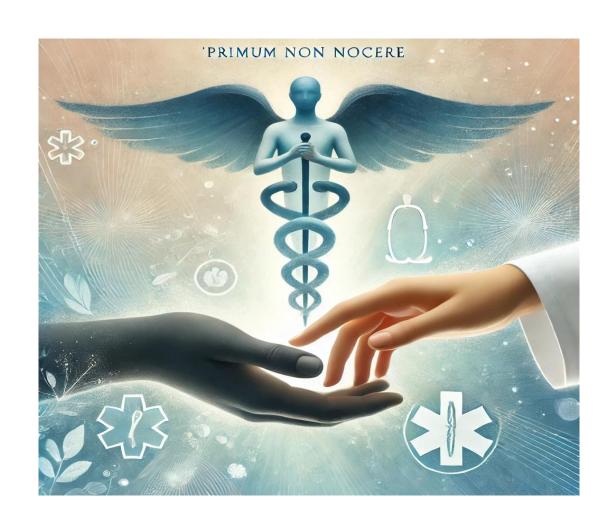

Create and sustain a normalized curriculum without a 'penalty box'.

Where does coaching fit in for remediation?

#### Toolkit #3:

Coaching is an essential approach for a struggling student to build adaptive strategies for growth.

What are next steps to "help every student across the finish line?"

#### Toolkit #4:

Engage in remediation communities of practice to further advance system, strategy and solution-building.

COACHING AND REMEDIATION

HELPING EVERY STUDENT ACROSS THE FINISH LINE
