

Marshall University
Biomedical Research
Course of Study for Ph.D.

Name: _____

Area of Emphasis: _____

Directions:

1. This form should be typewritten and completed in full.
2. It must be signed by the student and his/her graduate committee.
3. When approved by the Director of Graduate Studies, it becomes a working plan for student, committee, and Graduate College.
4. Requests for change in the Course of Study should be submitted in writing:
 - a. For a small change in approved program, a letter of request should be submitted to the Graduate College after written concurrence has been obtained from a majority of the student's doctoral committee.
 - b. Major changes in program will require that a revised Course of Study be submitted to the Graduate Studies Committee for its approval and transmission to the Graduate College office.
5. Generally, after two semesters as a full-time doctoral student, a meeting is held among the student, advisor, and committee to draw up a plan of research. The plan is submitted to the Director of Graduate Studies.
